

FOR-HIRE INTRASTATE OPERATING AUTHORITY DECAL RENEWAL INFORMATION AND NEWS

In Virginia, you are required to annually renew your For-Hire Operating Authority and your operating authority registration decals. A renewal application for decals is enclosed.

IRP vehicles that do not display **2007** operating authority decals after June 30, 2006 cannot be used under your operating authority.

Only vehicles that are registered under International Registration Plan (IRP) apportioned license plates are required to display Virginia For-Hire Intrastate Operating Authority decals.

Incomplete and/or unsigned applications cannot be processed and will be returned to you.

If you operate only IRP vehicles under your operating authority:

Complete the enclosed renewal application. Make changes to the pre-printed information if needed. Send the application and fee to the above address.

If you do not operate any IRP vehicles under your operating authority:

Your motor carrier records show that you have IRP on registration. If you do not and you still operate as for-hire, please contact us so we can correct your records. Your vehicle registration card should display your operating authority information. If it does not, please contact us (contact information below).

If some of your vehicles are registered under IRP and some are not:

Complete the enclosed renewal application giving information for your IRP vehicles only. Send the application and fee payment to the above address.

You are no longer required to display operating authority registration decals on your vehicles that are not registered under IRP. Instead, your vehicle registration card(s) will display your operating authority information. The fee (\$3 or \$10) for renewing your operating authority registration will be added to the fee paid to renew your vehicle registration.

Questions

If you have any questions regarding your renewal, contact a motor carrier customer service representative at:
